

Product Data Sheet MS Elite

Description:

MS Elite features a double-coated white film with a high-tack acrylic adhesive, making it suitable for bonding to rubber, plastic, metal, and wood surfaces. This adhesive system offers great resistance to temperature, UV light, aging, and water vapor, making it ideal for long-term mounting and bonding applications.

Adhesive:	Acrylic
Adhesion:	126 oz/in
Thickness:	8.9 mils
Shear Strength:	Excellent
Operating Temp:	-38°F to +174°F
Full Bond Strength:	72 hours
Solvent Resistance:	Good
U.V. Resistance:	Good
Age Life:	Excellent
Color:	White
